CENTRAL INTELLIGENCE AGENCY

- 2 -

It is rumored that they contain munitions and sea mines. Approach to the barracks is strictly forbidden to unauthorized civilians, and even vessels may not draw near.

Obosnik

7. An observation station of the Yugoslav Navy is located on Obosnik.

Cape Kabala

Major construction projects are currently in progress on Cape Kabala.

In general, they are new projects for antiaircraft artillery. Two large new bunkers for coastal cannons were recently built on the Cape. The bunkers are situated at a height of approximately 30 meters above sea level, and are well camouflaged. All old fortifications in the area have been renovated, and are currently supplied with armament and are manned by permanent crews.

Cape Lustica

9. This is the site of the largest construction projects in the entire Bay of Kotor area. Numerous soldiers working day and night are employed. Arrivals of large shipments of construction material have been observed.

Fort Mamula

10. The fort has been completely abandoned, and military units are no longer manifest.

Cape Arza

11. A powerful signal and search light station is located on the Cape.

Macka

12. A Yugoslav naval observation station is located on Macka. It is supplied with signal equipment.

Cape Plantamon

13. A large observation station is located on the height of Sv. Andrija. Somewhat below the station is a new wooden barracks occupied by the military. The construction of fortifications is in progress in this area.
